Enzymatic Cleaners

Amclair Weekly Enzymatic Cleaning Tablets	by Abatron
---	------------

**DO NOT USE TAP WATER, ABRASIVE OR ALCOHOL BASED CLEANERS**

(These will damage or destroy the Tangible Hydra-PEG™ coating)

Abrasive Cleaners

Boston® Advance	by Bausch & Lomb
-----------------	------------------

or similar products

Alcohol Based Cleaners

Miraflow (and equivalents)	by various companies
Oté Clean	by Oté
i-clean!	by Contopharma
Boots Advanced Cleaning Solution	by Boots

or similar products

Others

Progent	by Menicon
Oté Twins Active	by Oté
Boston One Step Liquid Enzymatic Cleaner	by Bausch & Lomb
Abatron Quattro	by Abatron

or similar products

We advocate following the instructions indicated with each of the care solutions, including, where stated, rubbing and rinsing the lenses where appropriate.

Lenses should not be stored dry, but always in a contact lens care solution, according to the instructions on the packaging of that solution.

You should never rub the lenses with a dry tissue or cloth. These are often very abrasive at a surface level and can damage the Tangible Hydra-PEG™ coating.

Contamac confirme que la liste de produits ci-dessous est compatible avec le traitement de surface Tangible Hydra-PEG™ sur les lentilles rigides en Optimum.

### UTILISER UNIQUEMENT DES SOLUTIONS APPROUVÉES POUR LE TRAITEMENT TANGIBLE HYDRA-PEG™

#### Solutions Tout-en-un

Menicon Unique pH	de Menicon
Boston Simplus®	de Bausch & Lomb
Solocare Aqua	de Ciba Vision

#### Solutions Peroxyde

Clear Care®	d'Alcon
Clear Care® Plus avec HydraGlyde®	d'Alcon

#### Nettoyeurs Enzymatiques

Amclair Tablettes Enzymatiques - Nettoyage Hebdomadaire	d'Abatron
---	-----------

### NE PAS UTILISER D'EAU DU ROBINET, NI DE NETTOYEUR ABRASIF OU À BASE D'ALCOOL

(Ces produits peuvent endommager le traitement Tangible Hydra-PEG™)

#### Produits Abrasifs

Boston® Advance	de Bausch & Lomb
-----------------	------------------

ou des produits similaires

#### Produits à Base d'Alcool

Miraflow (et équivalents)	de différentes sociétés
---------------------------	-------------------------

ou des produits similaires

#### Autres Produits

Progent	de Menicon
Boston One Step Nettoyeur Enzymatique Liquide	de Bausch & Lomb

ou des produits similaires

Nous soulignons qu'il faut toujours suivre les instructions de l'emballage du produit d'entretien, incluant, le cas échéant de frotter et rincer les lentilles.

Il ne faut jamais frotter les lentilles avec un tissu sec. Ceux-ci peuvent souvent montrer une surface abrasive et endommager le traitement Tangible Hydra-PEG™.

Il ne faut jamais stocker vos lentilles à sec mais dans un produit d'entretien pour lentilles tout en suivant les instructions sur l'emballage.

**Andere Produkte**

Progent
Boston One Step Enzymreiniger
Oté Twins Active

oder ähnliche Produkte

Wir empfehlen, den Anweisungen bzgl. Reiben und ggf. Abspülen, welche auf der Verpackung der jeweiligen Pflegemitteln stehen, genau zu befolgen.

Sie sollen Ihre Linsen nie mit einem trockenen Tuch abwischen. Diese sind oft auf mikroskopischer Ebene abrasiv und können die Tangible Hydra-PEG™ Beschichtung beschädigen.

Sie sollen Ihre Linsen nie trocken aufbewahren, sondern nach Anleitungen in einer geeigneten Aufbewahrungslösung lagern.

O prodotti simili

Noi sosteniamo seguendo le istruzioni indicate con ciascuna delle soluzioni di cura, compresi, se del caso, strofinando e sciacquando le lenti ove necessario.

Non si deve mai strofinare le lenti con un tessuto secco o un panno. Questi sono spesso molto abrasivi a livello di superficie e possono danneggiare il rivestimento Tangible Hydra-PEG™.

Le lenti non devono essere conservate asciutte, ma sempre in una soluzione di cura delle lenti a contatto, secondo le istruzioni sull'imballaggio di tale soluzione.
